

Front-End Developer

Joining our team, you will be the bridge between the UI/UX team and the development team, creating the best possible experience for our users.

Do you identify as a simultaneously creative & analytical thinker who loves teamwork? We're looking for you!

You will love this job if you're:

- **Creative**, you will be encouraged to not only adopt designs provided to you but to actively bring in your own ideas in the designing process. You know how to combine aesthetics with usability.
- **Analytical thinking**, you have an eye for details and the steps necessary to build a fully performing application. Even in complex applications, you don't lose track of any aspect or function.
- **Communicative**, you are a team worker and know how to collaborate with teams with different concerns. Mediating between designers and developers, as well as reporting to the project management should go without saying.
- **Empathic**, you know of the problems the teams you are collaborating with have, but most importantly, you can put yourself in the position of a non-professional user. Every part of the application should work intuitively.

Your challenges:

1. Build, deploy and manage highly usable web applications
2. Architecting their design in close collaboration with our UX engineers
3. Creating them using TypeScript and Vue.JS
4. Ensuring maximum speed & scalability, as well as cross-browser compatibility & responsive design
5. Optimizing the usability of already existing frontends
6. Evaluating and introducing modern front-end technologies
7. Creating reusable code for future use

Your skillset:

- ✓ Deep knowledge in TypeScript & Vue.JS
- ✓ Good knowledge of HTML5 and CSS3
- ✓ Experienced with SQL databases (PostgreSQL)
- ✓ Working experience with automated CI/CD environments, such as GitLab
- ✓ Excellent written and verbal communication competencies in English
- ✓ Worked in agile teams using methodologies such as Scrum before
- ✓ *Plus:* Working experience in developing and using GraphQL APIs
- ✓ *Plus:* good knowledge of Node.JS

Our highlights:

- Awesome team with flat hierarchies
- Centrally located offices with good traffic connection
- Employee benefits, e.g. discounts, fresh fruit, beverages, fitness & sporting activities
- An open culture encouraging creativity for new ideas
- Working directly with top individuals in the startup ecosystem
