replex

UX Designer

Joining our team, you will be responsible for creating the best cross-functional user experience possible by collaborating with our internal product team and customers from various industries.

You identify as a creative and energetic team player who has the passion for user-centered design? We're looking for you!

You will love this job if you're:

- **Creative**, you will be encouraged to not only adopt the requirements provided by our customers and advisors but to actively bring in your own ideas in the designing process. You know how to combine aesthetics with usability.
- **Communicative**, you are comfortable talking to different stakeholders, collecting their requirements and ideas, and presenting complex topics at various organisational levels. Communication is key.
- **Technical**, you are well-versed in software and web development, knowing how users interact with a virtual and dynamic user interface.
- **Critical thinking,** you can carefully evaluate and analyse factual evidence and your customer's requirements while staying unbiased and not losing sight of the overall goal - successfully delivering our platform solution and driving resolution of customer issues.

Your challenges:

1. Creating cross-functional and high-quality user experiences
2. Bringing ideas to live in the form of sketches, concepts and high-level prototypes
3. Validate concepts and solutions delivered by internal teams or external vendors
4. Define experiences that will maximise consumer engagement, conversion and advocacy for replex
5. Working in close collaboration with our ecosystem, as well as our product & sales team
6. Leverage your in-depth knowledge to create consistent E2E experiences
7. Consult stakeholders on user centric thinking

You skillset:

- ✓ Bachelor's or Master's degree in the field of business or equivalent
- ✓ 3y+ experience in the area of front-end design and working with agiles teams
- ✓ Work experiences in digital B2B environment
- ✓ Strong portfolio that demonstrated your attention to details and problem-solving
- ✓ Experience in working with illustrators and other relevant wireframing tools
- ✓ Deep understanding of the web environment, GUI
- ✓ Excellent written and verbal communication competencies in English (Plus: German)

Our highlights:

- Awesome team with flat hierarchies
- Centrally located offices with good traffic connection
- Employee benefits, e.g. discounts, fresh fruit, beverages, fitness & sporting activities
- An open culture encouraging creativity for new ideas
- Working directly with top individuals in the startup ecosystem
