

## Full Stack Developer

Did you know that 30% of all active servers in the US are running without any purpose? That's the equivalent of wasting the energy of 4 nuclear power stations!

Replex enables enterprise customers to win back control over complex IT-Infrastructures. The software bundles all the information about the IT-stack in one single source of truth, no matter whether the infrastructure is based on physical servers, virtual instances or containers.

Founded in 2016, we currently have offices in Leipzig, Berlin, Duisburg and San Francisco. Internationalization and fast growth mean new opportunities, but also comes with new challenges. To keep our pace, we are looking for a Full Stack Developer to join our team.

### *Your role at Replex:*

- ✓ Design and implement backend software intersecting cloud and container technologies
- ✓ Learn and adapt new technologies and introduce them into the company
- ✓ Developing new features of the product
- ✓ Provide ongoing maintenance, support and enhancements in existing systems and platforms
- ✓ Provide recommendations for continuous improvement
- ✓ Produce high quality and well-documented code in an automated CI/CD environment

### *What we are looking for:*

- ✓ Analytical thinking: you have the skills to easily detect and solve software related problems. A detail oriented working method is therefore mandatory
- ✓ Communication: you will be working together with an interdisciplinary team and have an impact on every part of the application
- ✓ You like working in a continuously changing environment. All components of a software are evolving in a fast pace, so you are continuously learning and providing new input for our software
- ✓ Experience in programming languages such as Node.JS, Python, GoPlus as well as:
- ✓ Docker and Kubernetes
- ✓ SQL (e.g. MySQL) / NoSQL (e.g. MongoDB)
- ✓ Git / Gitlab and working with REST APIs
- ✓ Developing/running applications on Linux Operating systems
- ✓ Public Cloud vendors (AWS, GCP, Azure), designing and implementing Microservices
- ✓ Employing Continuous Integration and Continuous Delivery strategies

### *What we offer you:*

You will be joining Replex's motivated team at a time of excitement and growth. From day one, you will be given the opportunity to become a key asset towards building upon our continued success. We also offer you:

- ✓ A unique experience in a growing Tech-Start-Up, financed by major investors
- ✓ Flat hierarchies, responsibilities and the possibility to make an impact
- ✓ Competitive salary, flexible working hours and a super team atmosphere
- ✓ Great modern office spaces in Leipzig, Berlin and Duisburg
- ✓ Discounts, fresh fruit, beverages and a sports membership

Sound like a good fit for you? If so, then please send your CV to [jobs@replex.io](mailto:jobs@replex.io)

We look forward to your application!
